Commitment to Excellence

Business process outsourcing

Visvam we provide end to end solutions, high quality service, on-time delivery to our valuable clients. Our clients are spread over Europe, USA and Australia. You can ask for a free trial without any obligation.

Our Service:

- Accounting
- Medical Billing
- Medical Transcription
- Form Filling
- Book Keeping
- Data Entry
- Address Collection
- Search Engine Optimization
- Litigation
- Property Management
- Property Listing (Craigslist, Postlets, etc.,)

Your Benefits:

- Over 50% Cost reduction
- Quick Turnaround
- Absolute control
- High Quality
- No Setup and maintenance
- On -Time Delivery

Commitment to Excellence

PCB Design

Visvam Technologies provides turnkey Services to Printed Circuit Board Design. Visvam's Design Groups are Experts in Digital, Analog, Mixed Signal, and RF boards. We are offers design services in all Semiconductor Test Boards and Commercial Boards.

Capabilities:

1. Dedicated board Design team with Well experience in all latest EDA tools
2. Dedicated library development team
3. Library creation according to IPC 7351 Standards
4. Customized component creation

Design Services

1. Design of high speed digital, analog and mixed-signal boards
2. Design of Semiconductor test boards DUT Board, Interface boards and probe cards
3. All type of Prototype Boards and Evaluation Boards
4. Design migration from one EDA platform to another
5. Fine pitch and high Pin count Component
6. Blind and Buried via Boards
7. Multilayer boards
8. Propagation delay matched designs
9. Design of Backplanes, motherboards, and Daughter Boards
10. Controlled Impedance signals

visvAM

Commitment to Excellence

Mechanical Engineering Design

Visvam provide a full range of cad drafting and conversion services including Mechanical machine designing and Modification. We approach to mechanical Design yields a significant reduction in time to market and cost. We also having separate Engineering Industry for Fabrication of Machines, Automobiles and Motor Spares parts.

Design Services

1. Engineering analysis
2. Mechanical Drawings
3. AutoCAD Conversion
4. Paper to CAD conversion
5. 3D Modeling
6. 2D to 3D Conversion
7. New product development and prototyping
